1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Larry Huston on 9/17/04.

In the claims:

Cancel non-elected claims 1-12 & 19-20.

In claim 13, in the last line change "a pressure...2500 Torr" to --approximately atmospheric pressure--.

Add new claim 23,

-- A method according to claim 13, wherein said plasma is generated at a pressure from about 200 Torr to about 2,500 Torr.--

2. The following is an examiner's statement of reasons for allowance: applicants' addition of plasma concentrators (supported & described on p.9 & fig. 3 of the specification) to the process, remove the rejection over Leutesch, and none of the other cited prior art provides relevant teachings on such concentrators and the effects provided by them. The above amendment to claim 13 corrects the inconsistency between the preamble and steps, while claim 23, which concerns the pressure in the plasma chamber (not outside it at the substrate surface), puts the plasma generation pressure back in dependant form, similar to canceled claim 14.

Kuckertz et al (6,613,394 B2) is of interest for teaching atmospheric plasma generation to jet excited gases at a substrate for treatment, described as an indirect plasmatron using a plurality of

"neutrodes", but this is a "hot" plasma process and does not use microwaves, so does not read on the claims as written.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marianne L. Padgett whose telephone number is (571) 272-1425. The examiner can normally be reached on M-F from about 8:30 am to 4:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Shrive Beck, can be reached on (571) 272-1415. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
